

# EOVation City of Future competition rules

## Article 1 : Organisation

This competition is organized in Poland by Kapitech, in frame of the EO ClimLab project on request of ESA, European Space Agency. This competition is called EoVation®.

## Article 2 : Objectives

The aim of the competition is to promote the use of space technologies for the benefit of people and our planet by organizing a public event around climate issues. The EO ClimLab and its' partners have several objectives in proposing this grassroots project:

- To develop the spirit of enterprise among young people
- To demonstrate that space is a vector of innovation for employment and economic development in a sphere beyond its usual ecosystem
- To participate in the adoption and reuse of space technologies and data, to solve climate challenges

## Article 3 : Challenges

The organizers will present "challenges" on the website, in form of the thematic paths.

## Article 4 : Schedule

The national organizer of each partner country will organize the competition in accordance posted on the website, small corrections might appear in the schedule closer to the event itself.

## Article 5 : Participants

Participation in the competition is open to business creators, students, researchers, entrepreneurs, associations, companies, developers, users, job seekers, designers and space experts. Together they will form teams to take up, in 24 hours, one of the challenges to be proposed by the organisers. The competition is open to teams of two to five people including:

- adult individuals having an activity or residing in the country of one of the organiser sites (business creators, students, researchers, developers, users, designers and space experts, job seekers, etc.)
- and/or private law legal entities (associations, companies), represented by an individual delegated to participate in this competition, with no limitation as to nationality.

The organiser reserves the right to refuse the participation of any person if the maximum number of places has been reached or for any other reason resulting from non-compliance with the provisions of these rules or a legal or regulatory provision.

### **Article 6 : Terms of participation**

All participants must first register on the official website at the following address:  
<http://eoclimlab.eu/eovation-city-of-future-2/>

The organizer for the competition event reserves the right to refuse access to the buildings of the competition sites to persons who are not registered on the abovementioned official website.

Registration implies irrevocable acceptance of the following:

- these rules
- receipt of emails from the competition organiser
- optionally, receipt of offers and emails from the organiser's partners
- ratification of authorisations relating to image rights which, where applicable, will be requested by the organisers, to enable them, and their partners, to use and disseminate, free of charge and on a non-exclusive basis, photographs of the participants and use these photographs, in EoVation competition rules 3 whole or in part, for teaching, research, cultural or scientific or commercial exploitation purposes.

Registration and participation in the contest is free.

### **Article 7 : Constitution of teams and allocation of topics**

The constitution of teams is carried out freely and will not be imposed by the organisers. The rules for forming teams are as follows:

- a maximum of 3-4 people per team
- the organizers encourage the formation of teams with different profiles and specialities: 1st, 2nd, 3rd year, master's, other schools and universities, etc.

Single candidates will be helped by the organizer to form a team before or just at the beginning of the competition events.

A presentation of the topics will be posted online at least one month before the date of the event. When registering, candidates will be asked to indicate the topics they are interested in to anticipate the number of experts needed per area. The presentation of topics will be supplemented until the official opening of the competition and the teams may change their choice of topic until the start of the event. Several competing teams can develop the same topic.

### **Article 8 : Confidentiality and intellectual property of developments**

Participants are duly informed - and acknowledge - that the organizer does not guarantee the confidentiality of the information contained in the project files submitted.

The organizer advises participants to take all measures that they deem appropriate to protect the information or technical elements that they hold and which would likely be the subject of intellectual

property rights, prior to participating in the event.

Participants undertake to inform the organizers of any intellectual property rights they hold, and which are enforceable against the exploitation of work done within the framework of this competition to meet one of the challenges.

Participants are reminded that all information or technical elements they hold and which are not covered by intellectual property rights are part of the public domain.

Regarding software developments, candidates retain full ownership of the intellectual property rights on software developed within the framework of the competition, and exclusivity of commercial exploitation.

However, they authorise the organisers to use, for the sole purpose of promoting the competition and candidates, excerpts from these developments, in a form to be decided between the candidate and the organisers, for example in the form of a screen shot, limited access to the development for noncommercial purposes or any other form defined by mutual agreement to allow good communication on results of developments made during EoVation, without affecting the ownership and exclusivity of the commercial exploitation retained by the candidates.

#### **Article 9 : Assistance in preparing project files**

The event will be moderated by design thinking moderators, with the help of the technical and business experts.

#### **Article 10 : Designation of winners**

Each team will present its project to a jury during an 8-minute presentation which will take place at the end of the competition. The assessment criteria for each project focus on the following points:

- use of space data.
- the innovative and original nature of the project (product, service, incremental, radical and architectural, technological and organisational, business model, social innovation)
- the expected benefits of the project (relevance of the project to major social issues, etc.) in particular in terms of creation of services and employment.
- the validity of the economic model to generate income (maturity of supply and demand, reliability analysis, etc.)
- the jury's special prize

At the end of this presentation, the jury will meet and designate the three winners of the competition.

. The participants irrevocably acknowledge:

- that they have been informed that the rules do not provide for any recourse regarding the constitution or decision of the jury
- that jury deliberations are confidential and will not be disclosed to participants.

#### **Article 11 : The prizes**

- Trip to Toulouse, to city of Space
- BE monthly membership, to the selected team

- BE Special Prize (Implementation of the Workspace of Future concept). Prize can be awarded to the selected by BE team, and implemented if the IP rights are transferred to BE
- FabSpace 2.0 project prizes

### **Article 12: Award of prizes**

The official award of the "EoVation" 2017 prizes will take place during an awards ceremony on the 4<sup>th</sup> of June

### **Article 13: Change of competition dates**

The organiser cannot be held liable if, in case of force majeure or events beyond its control, it is required to cancel, reduce, extend or postpone this competition or change the conditions.

### **Article 14: Interpretation of the rules**

Participation in the "EoVation" competition implies full acceptance of the terms set out in these rules. The organiser of the competition event in which the candidate participates will be sovereign for all matters relating to the application of these rules or any issue that may arise which is not covered by them. Its decisions are final.

### **Article 15: Legal filing**

The rules may be changed at any time in the form of an amendment by the organiser, in accordance with the conditions laid down and posted online on the website [eoclimlab.eu](http://eoclimlab.eu). They will take effect from the date they are published and all participants will be deemed to have accepted them by the mere fact of their participation in the competition, from the effective date of the change. Any participant who refuses the changes made will not be able to present his/her project.

### **Article 16: Candidates' commitments**

Participants undertake to respond to any request for information from the organiser of the competition event in which they participate or of the selection committee and jury. The organisers reserve the right to cancel the application and participation of any person who fails to respect these rules, the equipment and premises of the competition venues, of third parties, etc. The candidate undertakes not to exercise any recourse concerning the organisation of the competition, the results and jury's decisions.
